Object : GIRUS actor of the energy efficiency and the climate change

On the behalf of ADEME, we attest that GIRUS Company, works in the field of the energy efficiency in buildings.

GIRUS is specialised in all kinds of studies and missions on large technical public and private buildings as well as infrastructures.

GIRUS is also working with the major French laboratories on energy efficiency to develop tools to improve the energy efficiency in buildings and is capable of reaching all the major labels in this domain (BBC® label, HQE® label, LEED Label....)

GIRUS possesses numerous references in France (Lyon, Paris, Suresnes, Bourgoin Jallieu, Perpignan...) in public or private buildings.

Besides, the group also realized its Bilan Carbone® (method of measure of carbon emissions) with the support of the ADEME, to reduce its impact on the climate change.

Philippe Masset,
Head of International
Programs and Partnership

About ADEME

The French Environment and Energy Management Agency (ADEME) is a public agency under the joint authority of the Ministry for Ecology, Sustainable Development, Transport and Housing, the Ministry for Industry, Energy and Digital Economy, and the Ministry for Higher Education and Research. The agency is active in the implementation of public policy in the areas of the environment, energy and sustainable development.

ADEME provides expertise and advisory services to businesses, local authorities and communities, government bodies and the public at large, to enable them to establish and consolidate their environmental action. As part of this work the agency helps finance projects, from research to implementation, in the areas of waste management, soil conservation, energy efficiency and renewable energy, air quality and noise abatement.
